

Educator Committee Meeting Summary Report October 27, 2022 – Zoom (Virtual)

Welcome

- Greg Hardy (Chair) welcomed the Educator Committee members.

Sim and Clinical Placements for LABCON

- Each Educator discussed what their institution has to offer in Sim and Clinical Placement for LabCon
- Christine discussed the Sim Conference at ONTechU

Discuss Patient Partners for EQual™ accreditation

- Educators agreed that they would like the CSMLS to request a webinar by EQual™ Canada for ML Educators to provide more clarification around Patient Partners and how Accreditation works with this aspect of the standard. CSMLS will inform the Educator Committee when they hear back from EQual Canada and will likely have an invite sent out if it is to occur before the next EC Meeting.

Round Table

- Educators shared what is currently happening in their program, institutions, and/or campuses.
- The Educators discussed LIS competency profile as automated or manual, and how much time is being spent teaching to this competency
 - Having a self-standing LIS resource is expensive and may not be budgeted year to year. It is hard to maintain, update, and support this program. This impacts the programs ability to provides learning/teaching on LIS specifically.
 - Employers are requesting students to be trained in LIS, which all agreed was beyond the scope of educating to minimally-competent MLPs.
- EdEHR was discussed as a great opportunity to help programs with course outlines.

Present: Greg Hardy (Chair), Danny Rowsell, Emily Chen, Rachelle Kingsler, Kimberly Wheelans, Mikael Khan, Diana Mohamad, Angela Yim, Michelle Lui

CSMLS staff: Denise Neutel, Christine Nielsen, Shandra Tournay, Sierra Paprocki

Regrets: Patricia Longpre
